

## Holistic Horse and Hoofcare Seminar – make a difference for your horse

- Horse keeping, Hooves, Healing – What connections are there?
- What is the anatomical make-up of a hoof and how does it function?
- How do you recognise Founder and Heel Pain, even Navicular Syndrome? What causes it and how do you address it?
- Do you know the purpose of the bars and how they should look like?
- How do you feed your horse correctly?
- How do you recognise a healthy horse?
- What living conditions does a horse need to stay healthy?

In this seminar (2 days theory + 1 day practical) you will get answers to the above and more, based on scientific research over many decades. On the practical day you will get an overview of this non-invasive hoofcare approach.

**Date:**
